Mark,

Julie and I wanted to say thank you very much for the custom home you built for us on Eagles Nest #3 during 2021 and 2022. Despite COVID-19, supply chain caused shortages, and skyrocketing lumber prices, we felt you and your team managed it well. Having built multiple homes over the years in various parts of the country, we were ultimately impressed with the quality of the workmanship your team produced.

You deserve a lot of credit for not only managing your team during these difficult times, but also many of your subcontractors who too were struggling with labor shortages and supply issues. We never felt short-cuts were taken with the end product being first class.

I can recommend without reservations you as an honest and trustworthy business owner who stands behind the work of his team. We are happy to show off your work to others interested in a Kovall Construction building project.

Sincerely,

Don and Julie Kemp
